Summary

Software Engineer with expertise in building scalable web applications using **AI** and automating deployments through CI/CD and **DevOps** practices.

Technical SKILLS

Languages | • C/C++ • Python • Java

Frontend Development | • NextJS • ReactJS • HTML • CSS • JavaScript • Tailwind CSS

Backend Development | • NodeJS • PHP • Spring Boot

Databases | • MongoDB • PostgresQL

DevOps Tools | • Git/Github • GitHub Actions • Docker • Linux • CI/CD • Railway

PROJECTS

Here are some of the key projects I've built to apply my skills in full-stack development, AI integration, and DevOps.

Parking Violation Reporting System with (CI/CD)   January 2025
Tech Stack : NodeJS HTML CSS JavaScript Github Actions Railway
- Built a web app to capture live images, **detect number plates**, and fetch **real-time parking violation locations.**
- Integrated **webcam**, **Google Maps API**, and set up **CI/CD using GitHub** Actions for automated deployment on Railway.
- Demonstrated full-stack development and DevOps automation to address a real-world civic problem.

Code : https://github.com/Shahid-15/snapandreport-shahid-.git

AI Interviewer App (Mock It Up)   January 2025
Tech Stack : NextJS MongoDB Clerk Based Authentication Gemini API(Google)
- Built an AI-powered mock interview platform with **dynamic Q&A and feedback.**
- Integrated Gemini AI for **role-specific questions,** MongoDB for data storage, and Next.js for the full-stack app.
- Helped users simulate **realistic interviews**, improving **preparation quality** and reducing practice time by an **estimated 30%.**

Code : https://github.com/Shahid-15/AI_Interviewer.git

AI Resume Builder App   February 2025
Tech Stack : ReactJS Nodejs Gemini API Clerk Based Authentication MongoDB
- Built an AI-powered **resume generator** with live preview, **multi-color themes, and downloadable PDFs.**
- Developed a **real-time editor in React** includes all necessary sections for resume, used Node.js for backend logic and **10+ colors themes.**
- Provided a smart, user-friendly tool for job seekers **reducing resume creation time by 70%** with auto-generated summaries via Gemini API.

Code : https://github.com/Shahid-15/AI_Resume_Builder.git

Bolt.new Clone – AI-Powered Web Builder   March 2025
Tech Stack : NextJS Sandpack Gemini AI MongoDB
- **Built a website that makes websites** allows users to create and modify web apps using natural language commands.
- Integrated Sandpack for live code editing and Gemini API to process commands like **dark theme or increase font size** developed the interface in Next.js.
- **Cut coding time by 80%** through AI automation, translating English commands directly into functional code.

Code : https://github.com/Shahid-15/bolt.newClone.git

EDUCATION

B.Sc. in Computer Science
Savitribai Phule Pune University(SPPU) Expected (May/June) 2025 **CGPA :9.32**

PORTFOLIO   https://shahidportfoliosite.netlify.app/

ACHIEVEMENTS

- Winner, Coding Competition (2×) – College Level
- Winner, Web Battle Competition – Web Development Challenge
- Solved 100+ LeetCode problems covering key data structures and algorithms.

COURSES

- Data Structures and Algorithms
- Machine Learning
